

Lanolin Based Arterial Fluid with Entrone and AD-P

ADITONE is a formaldehyde arterial fluid which contains Entrone for achieving penetration to the point of complete saturation and AD-P for control of formaldehyde action to obtain better diffusion and improvement of cosmetic effect. In addition, ADITONE contains ultra-fine lanolins and cosmetic oils to prevent dehydration and produce a natural look and texture to tissues. ADITONE is a general purpose arterial fluid suitable for use in all normal cases. ADITONE is not recommended for use in advanced decomposition or edematous cases.

		ADIT	ONE ^B	TRI-SAN ⁴	ALOE FACTOR ⁵

	OUNCES PER GALLON				

Notes:

- A A value assigned to all Champion fluids ranking them on the basis of preservative ability using recommended dilutions in normal cases. The Champion Preservative Factor is not index but can equal it in certain fluids. It is derived from the total chemical composition of each fluid and results of extensive field research. The Champion Preservative Factor can be used by the embalmer to predict the reactivity, preservative value and firming action of Champion fluids.
- B Add Champion Coloro Dyes as needed to achieve desired cosmetic effect.
- 1 For proper water conditioning and pH balance to maximize fluid efficiency (if using soft water reduce amount to 2-3 ozs.)
- 2 For sanitizing action in solution and improved fluid action in all non-glutaraldehyde based fluids.
- 3 These are recommended amounts for normal cases. Additional amounts of fluid will be needed for cases with higher aldehyde demand such as cancer, renal and liver diseases with their complications, institutional cases and other wasting diseases, delayed embalming cases, edema and bodies subjected to extensive drug therapy.
- 4 For increased aldehyde action of fluid with improved rigidity and preservation. (Increases preservative factor of fluid without inducing dehydration or other unwanted effects.)
- 5 For maximum rehydration of tissues. Restores moisture in cases of dehydration or emaciation. Use in last 1 to 1-1/2 gallons of solution with intermittent or restricted drainage.

BEFORE USING, READ SAFETY DATA SHEET. FOR PROFESSIONAL EMBALMING USE ONLY.

Safety Data Sheet

according to the federal final rule of hazard communication revised on 2012 (HazCom 2012) Date of issue: 11/19/2018 Version: 2.0

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier Trade name

: ADITONE

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/mixture Use of the substance/mixture

: Arterial Embalming Fluid: For professional use only

1.3. Details of the supplier of the safety data sheet

THE CHAMPION COMPANY 400 Harrison Street Springfield, Ohio 45505

Telephone No. (937) 324-5681

1.4. Emergency telephone number

INFOTRAC: 1-800-535-5053 DOMESTIC or 352-323-3500 INTERNATIONAL

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

GHS-US classification

Acute Tox. 4 (Oral)	H302
Acute Tox. 3 (Dermal)	H311
Acute Tox. 4 (Inhalation:dust,mist)	H332
Skin Corr. 1B	H314
Eye Dam. 1	H318
Skin Sens. 1	H317
Carc. 1A	H350
STOT SE 3	H335
STOT SE 1	H370

SECTION 4: First aid measures	
I.1. Description of first aid measures	
First-aid measures general	: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible). Call a doctor.
First-aid measures after inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Keep victim warm and rested. Seek medical attention immediately. If breathing stops, give artificial respiration. Transfer to hospital rapidly. Immediately call a doctor.
First-aid measures after skin contact	: Wash immediately with lots of water (15 minutes)/shower. Take off immediately all contaminated clothing. Get medical attention. Wash contaminated clothing before reuse.
First-aid measures after eye contact	: In case of contact with eyes flush immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart and consult an ophthalmologist. Remove contact lenses, if present and easy to do. Continue rinsing. Removal of contact lenses after an eye injury should only be undertaken by skilled personnel. Seek medical attention immediately. Transport to hospital.
First-aid measures after ingestion	: If swallowed, rinse mouth with water (only if the person is conscious).
	Immediately call a POISON CENTER. Give water or milk if the person is fully conscious.
	Take immediately victim to hospital. Seek medical advice (show the label where possible).

Safety Data Sheet according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)

4.2. Most important symptoms and effects	s, both acute and delayed
Symptoms/injuries	: Causes severe skin burns and eye damage. Causes damage to organs.
Symptoms/injuries after inhalation	: Harmful if inhaled. Danger of serious damage to health by prolonged exposure through inhalation. May cause cancer by inhalation. May cause respiratory irritation. Difficulty in breathing. Causes damage to liver through prolonged or repeated exposure if inhaled. Depression of the central nervous system, headaches, dizziness, drowsiness, loss of coordination. Death in extreme cases.
Symptoms/injuries after skin contact	: Toxic in contact with skin. May cause severe burns. Absorbed through the skin. May cause an allergic skin reaction. Repeated exposure to this material can result in absorption through skin causing significant health hazard.
Symptoms/injuries after eye contact	: Causes serious eye damage. Redness and pain. Impaired vision, watering of eyes, defects in the cornea. Burning sensation. Inflammation. Can cause blindness.
Symptoms/injuries after ingestion	: Harmful if swallowed. Swallowing a small quantity of this material will result in serious health hazard. This material contains methanol, which, when ingested, has cards acidosis, ocular toxicity ranging from diminished visual capacity to complete blindness, and death. Ingestion may cause nausea, vomiting and diarrhea. Swallowing can cause severe injury leading to death.

4.3. Indication of any immediate medical attention and special treatment needed

No additional information available

SECTION 5: Firefighting measures	
5.1. Extinguishing media	
Suitable extinguishing media Unsuitable extinguishing media	 Alcohol resistant foam, dry powder, carbon dioxide (CO2). Water spray. Sand. Do not use a solid water stream as it may scatter and spread fire.
5.2. Special hazards arising from the su	bstance or mixture
No additional information available	
5.3. Advice for firefighters	
Firefighting instructions	Prevent runoff from entering drains, sewers or waterways. Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering environment.
Protective equipment for firefighters	: Do not enter fire area without proper protective equipment, including respiratory protection. Wear a self contained breathing apparatus.
Other information	: Combustible liquid. Heat may build pressure, rupturing closed containers, spreading fire and increasing risk of burns and injuries. Use water spray to cool unopened containers. Alcohols burn with a pale blue flame which may be extremely hard to see under normal lighting conditions. Personnel may be able to feel the heat of the fire without seeing flames. Extreme caution must be exercised in fighting alcohol fires. Vapors are heavier than air and may travel considerable distance to an ignition source and flash back to source of vapors. Move undamaged containers from immediate hazard area if it can be done safely. On burning: release of carbon monoxide - carbon dioxide. unburned hydrocarbons. Formaldehyde.
SECTION 6: Accidental release mea	sures
6.1. Personal precautions, protective eq	uipment and emergency procedures
General measures	: Stop leak if safe to do so. Avoid breathing dust, fume, mist, spray, vapors. Avoid contact with skin, eyes and clothing. Eliminate all ignition sources if safe to do so.
6.1.1. For non-emergency personnel	
Protective equipment	: Wear suitable protective clothing. For further information refer to section 8: "Exposure controls/personal protection".
Emergency procedures	: Evacuate unnecessary personnel.
6.1.2. For emergency responders	
Protective equipment Emergency procedures	: Avoid breathing dust, fume, mist, spray, vapors. Equip cleanup crew with proper protection. : Ventilate area.

6.2. **Environmental precautions**

Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters.

Safety Data Sheet according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)

6.3. Methods and material for containment	and cleaning up
Methods for cleaning up	: Keep upwind of the spilled material and isolate exposure . Wear proper protective equipment. Do NOT touch spilled material.
	Cleanup personnel must be trained in the safe handling of this product. If possible ventilate area by means of non-sparking, grounded ventilation system.
	Spills may be absorbed on non-reactive absorbents such as vermiculite. Place cells into individual plastic bags and then place into appropriate containers and close tightly for disposal. Ensure that cleanup procedures do not expose spilled material to any moisture. Immediately transport closed containers outside.
	Contain large spillage with sand or earth. Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Gather the product and place it in a spare container that has been suitably labelled. Store away from other materials.
	Ensure all national and local regulations are observed. Consult the appropriate authorities about waste disposal. Small spills may be flushed to a sanitary sewer with copious amounts of water, if in accordance with local, state or national legislation. Eliminate all sources of ignition, avoid sparks, flames and do not smoke in risk area.

6.4. **Reference to other sections**

See Heading 8. Exposure controls and personal protection.

SECTION 7: Handling and storage	
7.1. Precautions for safe handling	
Precautions for safe handling	: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Work in a well-ventilated area. Avoid breathing dust, fume, mist, spray, vapors. Keep away from clothing as well as other incompatible materials. Avoid contact with skin, eyes and clothing. Provide good ventilation in process area to prevent formation of vapor. Keep away from heat, sparks, open flames, hot surfaces No smoking.
Hygiene measures	: Handle in accordance with good industrial hygiene and safety practices. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Do not eat, drink or smoke when using this product. Wash contaminated clothing before reuse. Contaminated work clothing should not be allowed out of the workplace.
7.2. Conditions for safe storage, including	g any incompatibilities
Technical measures	: A washing facility for eye and skin cleaning purposes should be present. Ensure adequate ventilation. Comply with applicable regulations.
Storage conditions	: Protect containers against physical damage. Keep only in the original container in a cool, well ventilated place. Store away from direct sunlight or other heat sources. Keep container tightly closed.
Incompatible materials	: Strong acids, bases. Oxidizing agents.
Heat and ignition sources	: Store away from direct sunlight or other heat sources.
7.3. Specific end use(s)	

No additional information available

Safety Data Sheet

according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)

10.2. Chemical stability

Stable under normal conditions.

10.3. Possibility of hazardous reactions

Hazardous polymerization will not occur.

10.4. Conditions to avoid

Direct sunlight. Extremely high or low temperatures. heat, sparks, open flames, hot surfaces. heat sources.

10.5. Incompatible materials

Oxidizing agents. Strong acids. strong bases.

10.6. Hazardous decomposition products

Thermal decomposition generates : Corrosive vapors. Fume. Carbon monoxide. Carbon dioxide. Formaldehyde.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity	: Harmful if swallowed. Toxic in contact with skin. Harmful if inhaled.		
Methyl alcohol (67-56-1)			
LC50 inhalation rat (mg/l)	130.7 mg/l/4h (lit. ECHA)		
ATE US (oral)	100.0000000 mg/kg bodyweight

ATE US (vapors)	0.57800000 mg/l/4h		
ATE US (dust,mist)	0.57800000 mg/l/4h		
Boric acid, disodium salt, pentahydrate (1217	/9-04-3)		
LD50 oral rat	2403 mg/kg		
ATE US (oral)	2403.0000000 mg/kg bodyweight		
Boric acid (H3BO3) (10043-35-3)			
LD50 oral rat	2660 mg/kg		
LD50 dermal rabbit	> 2000 mg/kg		
LC50 inhalation rat (mg/l)	> 0.16 mg/l/4h		
ATE US (oral)	2660.0000000 mg/kg bodyweight		
Skin corrosion/irritation	: Causes severe skin burns and eye damage.		
Serious eye damage/irritation	: Causes serious eye damage.		
Respiratory or skin sensitisation	: May cause an allergic skin reaction.		
Germ cell mutagenicity	: Not classified		
Carcinogenicity	: May cause cancer.		
Formaldehyde (50-00-0)			
IARC group	1 - Carcinogenic to humans		
National Toxicity Program (NTP) Status	2 - Known Human Carcinogens		
Reproductive toxicity	: Not classified		
	Based on available data, the classification criteria are not met.		
Specific target organ toxicity (single exposure)	: May cause respiratory irritation. Causes damage to organs (optic nerve, central nervous system		
Specific target organ toxicity (repeated	: Not classified		
exposure)	Based on available data, the classification criteria are not met.		
11/19/2018	EN (English) 6/10		

Safety Data Sheet

according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)

Aspiration hazard	: Not classified
	Based on available data, the classification criteria are not met.
Potential Adverse human health effects and symptoms	: Harmful if inhaled. Toxic if swallowed. Toxic in contact with skin.
Symptoms/injuries after inhalation	: Harmful if inhaled. Danger of serious damage to health by prolonged exposure through inhalation. May cause cancer by inhalation. May cause respiratory irritation. Difficulty in breathing. Causes damage to liver through prolonged or repeated exposure if inhaled. Depression of the central nervous system, headaches, dizziness, drowsiness, loss of coordination. Death in extreme cases.
Symptoms/injuries after skin contact	: Absorbed through the skin. May cause an allergic skin reaction. Repeated exposure to this material can result in absorption through skin causing significant health hazard. Toxic in contact with skin. May cause severe burns.
Symptoms/injuries after eye contact	: Causes serious eye damage. Redness and pain. Impaired vision, watering of eyes, defects in the cornea. Burning sensation. Inflammation. Can cause blindness.
Symptoms/injuries after ingestion	: Harmful if swallowed. Swallowing a small quantity of this material will result in serious health hazard. This material contains methanol, which, when ingested, has cards acidosis, ocular toxicity ranging from diminished visual capacity to complete blindness, and death. Ingestion may cause nausea, vomiting and diarrhea. Swallowing can cause severe injury leading to death.

SECTION 12: Ecological information

12.1. Toxicity

Methyl alcohol (67-56-1)		
LC50 fishes 1	> 12700 mg/l 96 hours	
EC50 Daphnia 1	> 10000 mg/l	
Formaldehyde (50-00-0)		
LC50 fishes 1	22.6 - 25.7 mg/l (Exposure time: 96 h - Species: Pimephales promelas [flow-through])	
EC50 Daphnia 1	2 mg/l (Exposure time: 48 h - Species: Daphnia magna)	
LC50 fish 2	1510 µg/l (Exposure time: 96 h - Species: Lepomis macrochirus [static])	
EC50 Daphnia 2	11.3 - 18 mg/l (Exposure time: 48 h - Species: Daphnia magna [Static])	
Boric acid (H3BO3) (10043-35-3)		
EC50 Daphnia 1	115 - 153 mg/l (Exposure time: 48 h - Species: Daphnia magna)	
2.2. Persistence and degradability		
ADITIONE Persistence and degradability Not established.		
2.3. Bioaccumulative potential		
ADITONE		
Bioaccumulative potential	Not established.	
Formaldehyde (50-00-0)		
Log Pow	0.35 (at 25 °C)	
Logiow		
Boric acid (H3BO3) (10043-35-3)		
-	0	

12.4. Mobility in soil

No additional information available

12.5. Other adverse effects	
Effect on ozone layer	: No additional information available
Effect on the global warming	: No additional information available
Other information	: Avoid release to the environment.

Safety Data Sheet according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)

	· · · ·
SECTION 13: Disposal considerations	
13.1. Waste treatment methods	
Waste disposal recommendations	: It is the responsibility of the user to determine if disposal material is hazardous according to federal, state and local regulations. Dispose of contents and container to comply with applicable local, state, national and international regulation. Consult the appropriate authorities about waste disposal. Ensure all national and local regulations are observed. Do not pressurize, cut, weld, braze solder, drill, grind, or expose containers to flames, sparks, heat, or other potential ignition sources. Do not re-use empty containers. Dispose in a safe manner in accordance with local/national regulations.
Ecology - waste materials	: Avoid release to the environment. Hazardous waste due to toxicity.
SECTION 14: Transport information	
In accordance with DOT	
Transport document description	: UN2209, Formaldehyde, solutions, 8, PGIII, ltd.qty.
Hazard labels (DOT)	: 8 - Corrosive
Packing group (DOT)	: 11
DOT Packaging Exceptions (49 CFR 173.xxx)	: 154
DOT Packaging Non Bulk (49 CFR 173.xxx)	: 203
DOT Packaging Bulk (49 CFR 173.xxx)	: 241
DOT Quantity Limitations Passenger aircraft/rail (49 CFR 173.27)	: 5L
DOT Quantity Limitations Cargo aircraft only (49 CFR 175.75)	: 60 L
DOT Vessel Stowage Location	: A - The material may be stowed "on deck" or "under deck" on a cargo vessel and on a passenger vessel.
DOT Vessel Stowage Other	: 40 - Stow "clear of living quarters"
Additional information	
Other information	: No supplementary information available.
Transport by sea	
No additional information available	
Air transport	
No additional information available	
SECTION 15: Regulatory information	
15.1. US Federal regulations	
ADITONE	
RQ (Reportable quantity, section 304 of EPA's	List of Lists) : 400 lb
Methyl alcohol (67-56-1)	
RQ (Reportable quantity, section 304 of EPA's List of Lists) :	5000 lb
SARA Section 313 - Emission Reporting	1.0 %
Formaldehyde (50-00-0)	
Listed on the United States TSCA (Toxic Substa Listed on the United States SARA Section 302 Listed on United States SARA Section 313	ances Control Act) inventory
RQ (Reportable quantity, section 304 of EPA's	100 lb

Listed on United States SARA Section 313		
RQ (Reportable quantity, section 304 of EPA's List of Lists) :	100 lb	
SARA Section 302 Threshold Planning Quantity (TPQ)	500	
SARA Section 313 - Emission Reporting	0.1 %	

15.2. International regulations

CANADA

Safety Data Sheet

according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)

Formaldehyde (50-00-0)		
Listed on the Canadian DSL (Domestic Sustances List)		
WHMIS Classification	Class A - Compressed Gas Class B Division 1 - Flammable Gas Class D Division 1 Subdivision A - Very toxic material causing immediate and serious toxic effects Class D Division 2 Subdivision A - Very toxic material causing other toxic effects Class D Division 2 Subdivision B - Toxic material causing other toxic effects	
Boric acid (H3BO3) (10043-35-3)		
Listed on the Canadian DSL (Domestic Sustances List)		

WHMIS Classification

Class D Division 2 Subdivision A - Very toxic material causing other toxic effects

EU-Regulations

Formaldehyde (50-00-0)
Listed on the EEC inventory EINECS (European Inventory of Existing Commercial Chemical Substances)

Classification according to Regulation (EC) No. 1272/2008 [CLP]

No additional information available

Classification according to Directive 67/548/EEC [DSD] or 1999/45/EC [DPD]

No additional information available

15.2.2. National regulations

Formaldehyde (50-00-0)
Listed on IARC (International Agency for Research on Cancer)
Listed on the AICS (Australian Inventory of Chemical Substances)
Listed on IECSC (Inventory of Existing Chemical Substances Produced or Imported in China)
Listed on the Japanese ENCS (Existing & New Chemical Substances) inventory
Listed on the Japanese ISHL (Industrial Safety and Health Law)
Listed on the Korean ECL (Existing Chemicals List)
Listed on NZIoC (New Zealand Inventory of Chemicals)
Listed on PICCS (Philippines Inventory of Chemicals and Chemical Substances)
Japanese Poisonous and Deleterious Substances Control Law
Japanese Pollutant Release and Transfer Register Law (PRTR Law)
Listed as carcinogen on NTP (National Toxicology Program)
Listed on the Canadian IDL (Ingredient Disclosure List)

15.3. US State regulations

Methyl alcohol (67-56-1)				
U.S California - Proposition 65 - Carcinogens List	U.S California - Proposition 65 - Developmental Toxicity	U.S California - Proposition 65 - Reproductive Toxicity - Female	U.S California - Proposition 65 - Reproductive Toxicity - Male	No significance risk level (NSRL)
	Yes			
Formaldehyde (50-00-0)				
U.S California - Proposition 65 - Carcinogens List	U.S California - Proposition 65 - Developmental Toxicity	U.S California - Proposition 65 - Reproductive Toxicity - Female	U.S California - Proposition 65 - Reproductive Toxicity - Male	No significance risk level (NSRL)
Yes				

SECTION 16: Other information

Other information

: None.

Full text of H-phrases: see section 16:

Acute Tox. 3 (Dermal)	Acute toxicity (dermal) Category 3
Acute Tox. 3 (Inhalation)	Acute toxicity (inhalation) Category 3
Acute Tox. 3 (Inhalation:vapor)	Acute toxicity (inhalation:vapor) Category 3
Acute Tox. 3 (Oral)	Acute toxicity (oral), Category 3

Safety Data Sheet

according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)

Acute Tox. 4 (Inhalation:dust,mist)	Acute toxicity (inhalation:dust,mist) Category 4
Acute Tox. 4 (Oral)	Acute toxicity (oral), Category 4
Carc. 1A	Carcinogenicity, Category 1A
Eye Dam. 1	Serious eye damage/eye irritation, Category 1
Flam. Liq. 2	Flammable liquids Category 2
Repr. 1B	Reproductive toxicity Category 1B
Skin Corr. 1B	Skin corrosion/irritation Category 1B
Skin Sens. 1	Sensitisation — Skin, category 1
STOT SE 1	Specific target organ toxicity (single exposure) Category 1
STOT SE 3	Specific target organ toxicity (single exposure) Category 3
H225	Highly flammable liquid and vapor
H301	Toxic if swallowed
H302	Harmful if swallowed
H311	Toxic in contact with skin
H314	Causes severe skin burns and eye damage
H317	May cause an allergic skin reaction
H318	Causes serious eye damage
H331	Toxic if inhaled
H332	Harmful if inhaled
H335	May cause respiratory irritation
H350	May cause cancer
H360	May damage fertility or the unborn child
H370	Causes damage to organs

HMIS III Rating

Health Flammability Physical : 2 Moderate Hazard - Temporary or minor injury may occur

- : 2 Moderate Hazard
- : 0 Minimal Hazard
